

FOR ALL ON THE JOB INJURIES

Your employer is part of a managed care system for worker's compensation. This means in order to have your medical care paid for in a work-related accident/illness, you **MUST** use one of the physicians listed below unless:

1. You have a 911-type emergency (report to nearest medical provider);
2. You have immediate follow-up care with your emergency provider;
3. Care you need is not available within the system, as determined by a Gatekeeper;
4. You seek a second opinion for surgery recommended by a Gatekeeper/Specialist.
